WHO WE ARE

A company built over time

Founded in 2010, K.E. Group has gradually developed an organization capable of supporting clients at every stage of a project: from analyzing energy consumption and designing to building, maintaining, and managing systems.

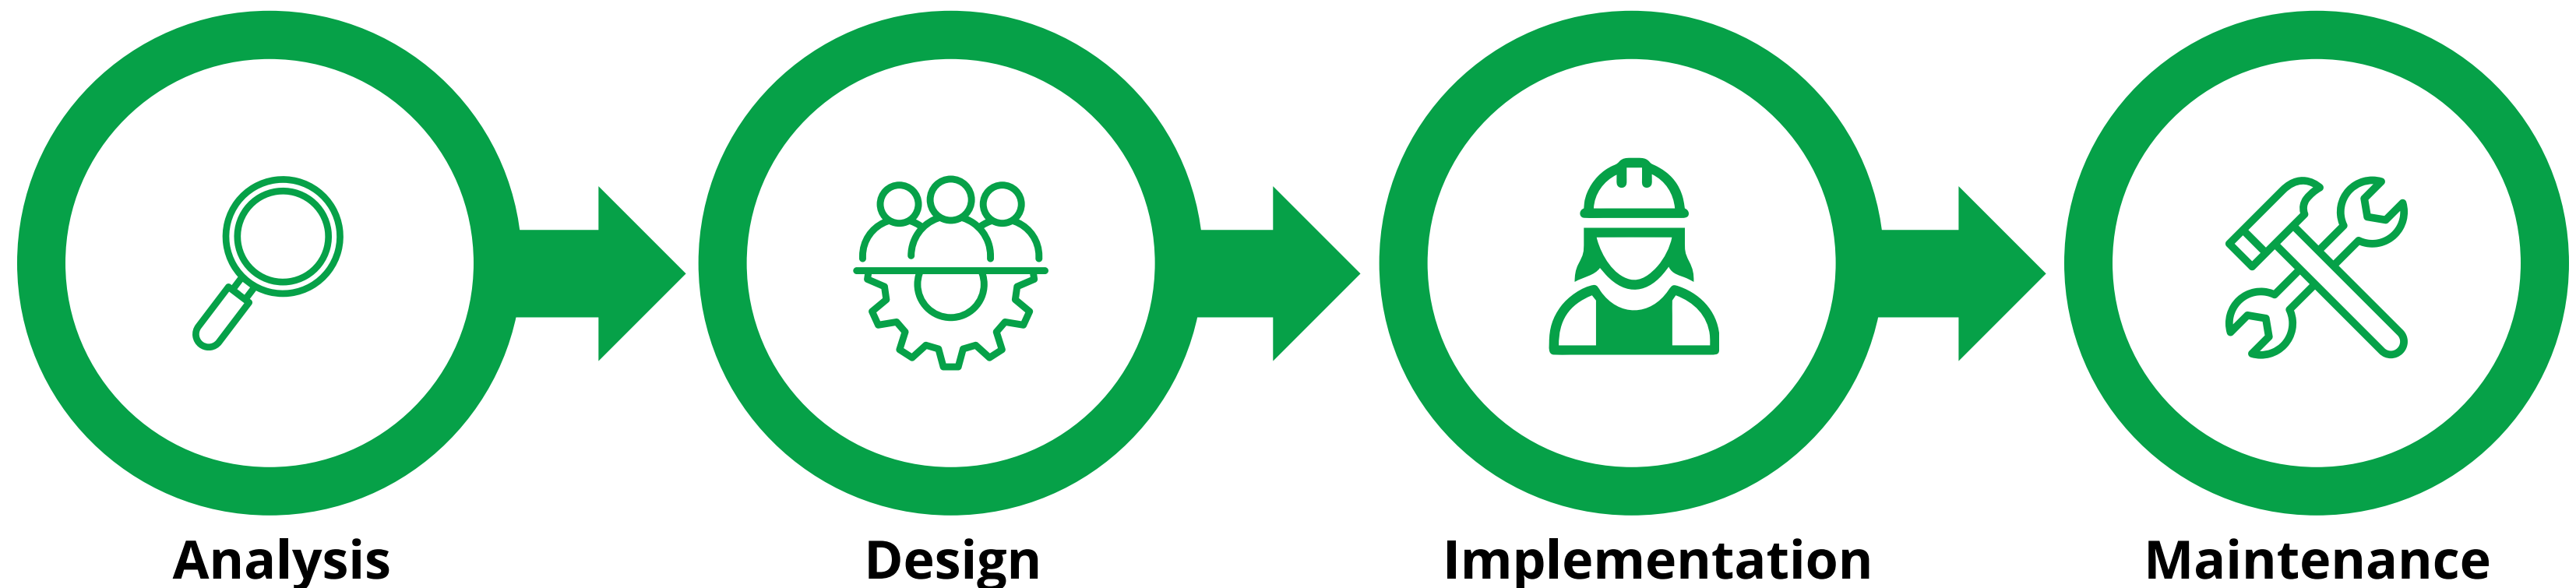

Since 2013, the company has been active in energy consulting, renewable energy, and energy efficiency, establishing itself as a technical company focused on real results.

OUR APPROACH

From analysis to execution: an integrated approach

Energy efficiency isn't just a service; it's a full process that starts with understanding the real operational needs and leads to implementing high-performance systems designed to ensure long-term reliability.

An end-to-end approach that ensures quality, safety, and measurable results at every stage of the project.

MAIN SERVICE

Energy and electrical engineering solutions

Photovoltaic systems

Design, installation, and management of renewable energy generation systems

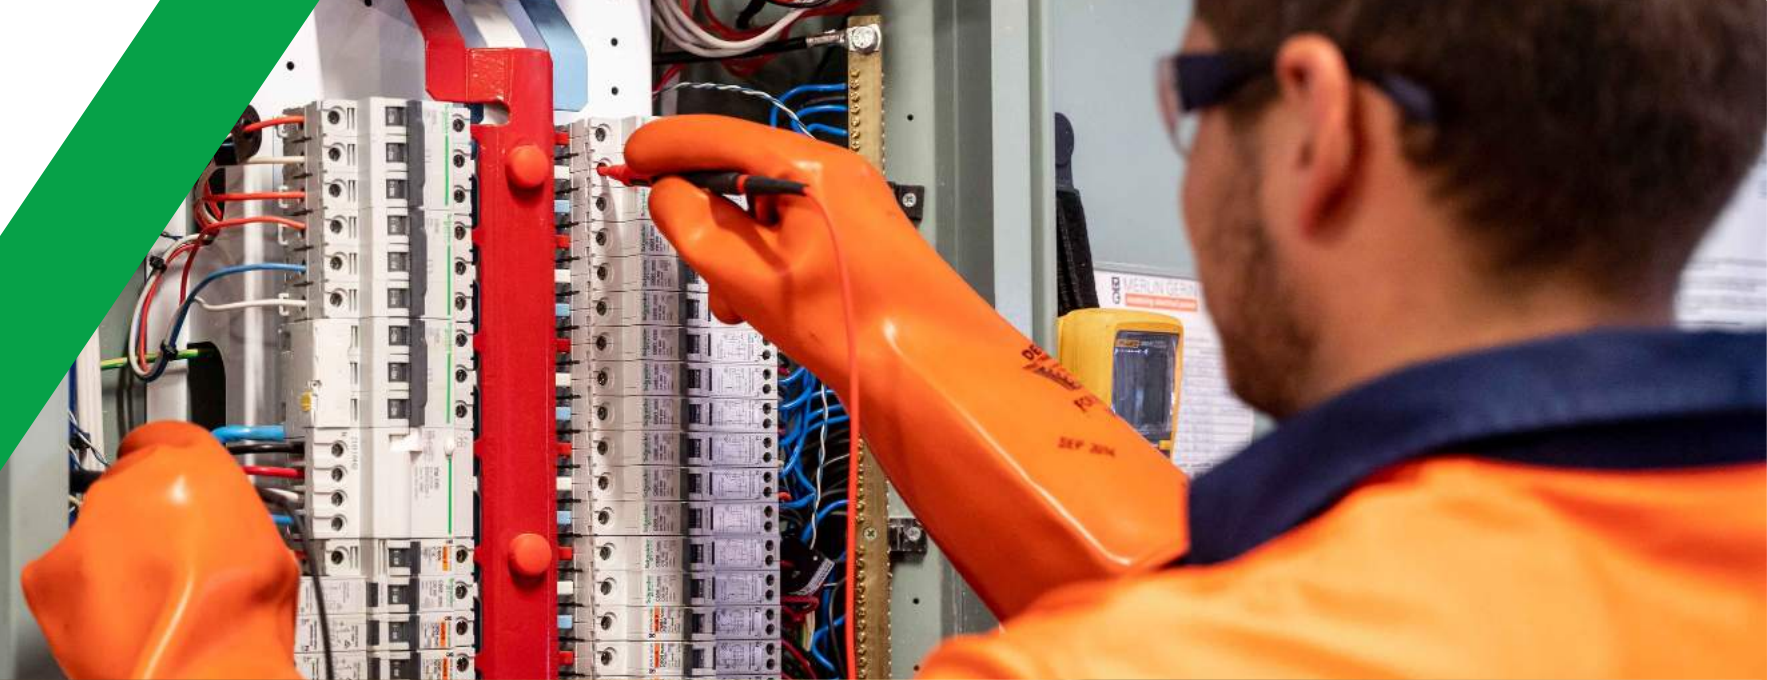

Electrical systems

Installation and maintenance of residential and industrial electrical systems in accordance with current regulations.

Lighting solutions

High-efficiency lighting systems for indoors and outdoors designed to reduce energy consumption and improve performance.

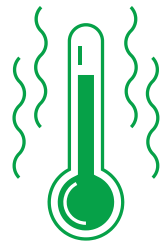

OPERATIONAL EXPANSION

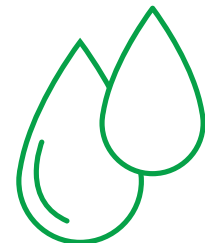

Integrated engineering systems and constructions

Just one project, a reliable partner

K.E. Group is fully qualified and set up to work in a wide range of engineering fields, handling complex projects where technical systems fit perfectly with construction, renovation, and tech infrastructure activities.

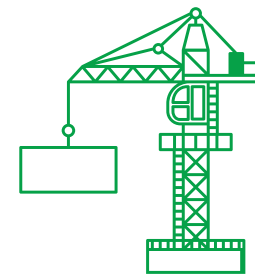

Heating and air
conditioning
systems

Hydraulic,

STRATEGIC ROLE

General Contractor: Coordination and Responsibilities

K.E. Group works as a General Contractor, taking full responsibility for coordinating and carrying out complex projects in the private, industrial, and public sectors.

Coordination

Integrated management of all phases of the project and the suppliers

Responsibility

A single point of contact for the client, ensuring full responsibility throughout the entire project execution

Flexibility

Tailor-made solutions for private clients, companies, public bodies, and professional organizations.

QUALIFICATIONS AND AUTHORIZATIONS

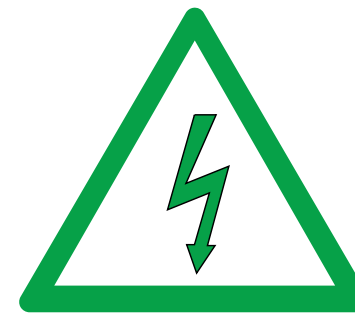

Recognized technical requirements for public and private projects

K.E. Group has important technical qualifications that allow access to public contracts and show the company's organizational and operational strength.

SOA OG1 — Class III-bis

Civil and industrial buildings.
Certification for high-value public works.

SOA OS30 — Class III

Electrical, telecommunication, and
radio/TV systems.

Decreto Ministeriale 37/2008

Certified professionals authorized to
install, modify, and maintain technical
systems.

CERTIFICATIONS

Quality, safety, and environmental standards

K.E. Group has embarked on a structured certification path, strengthening its position in the energy efficiency sector.

ISO 9001:2015

Quality management system.

ISO 14001:2015

Environmental management system.

ISO 45001:2018

Health and safety management system at work.

ESCo UNI CEI 11352

Certification for the professional management of energy efficiency and energy saving projects.

TERRITORIAL PRESENCE

Two locations, one operational vision

A network at the service of our customers

Our multi-branch presence allows K.E. Group to efficiently organize technical, operational, and administrative activities, while still keeping direct relationships with clients, suppliers, construction sites, and project stakeholders.

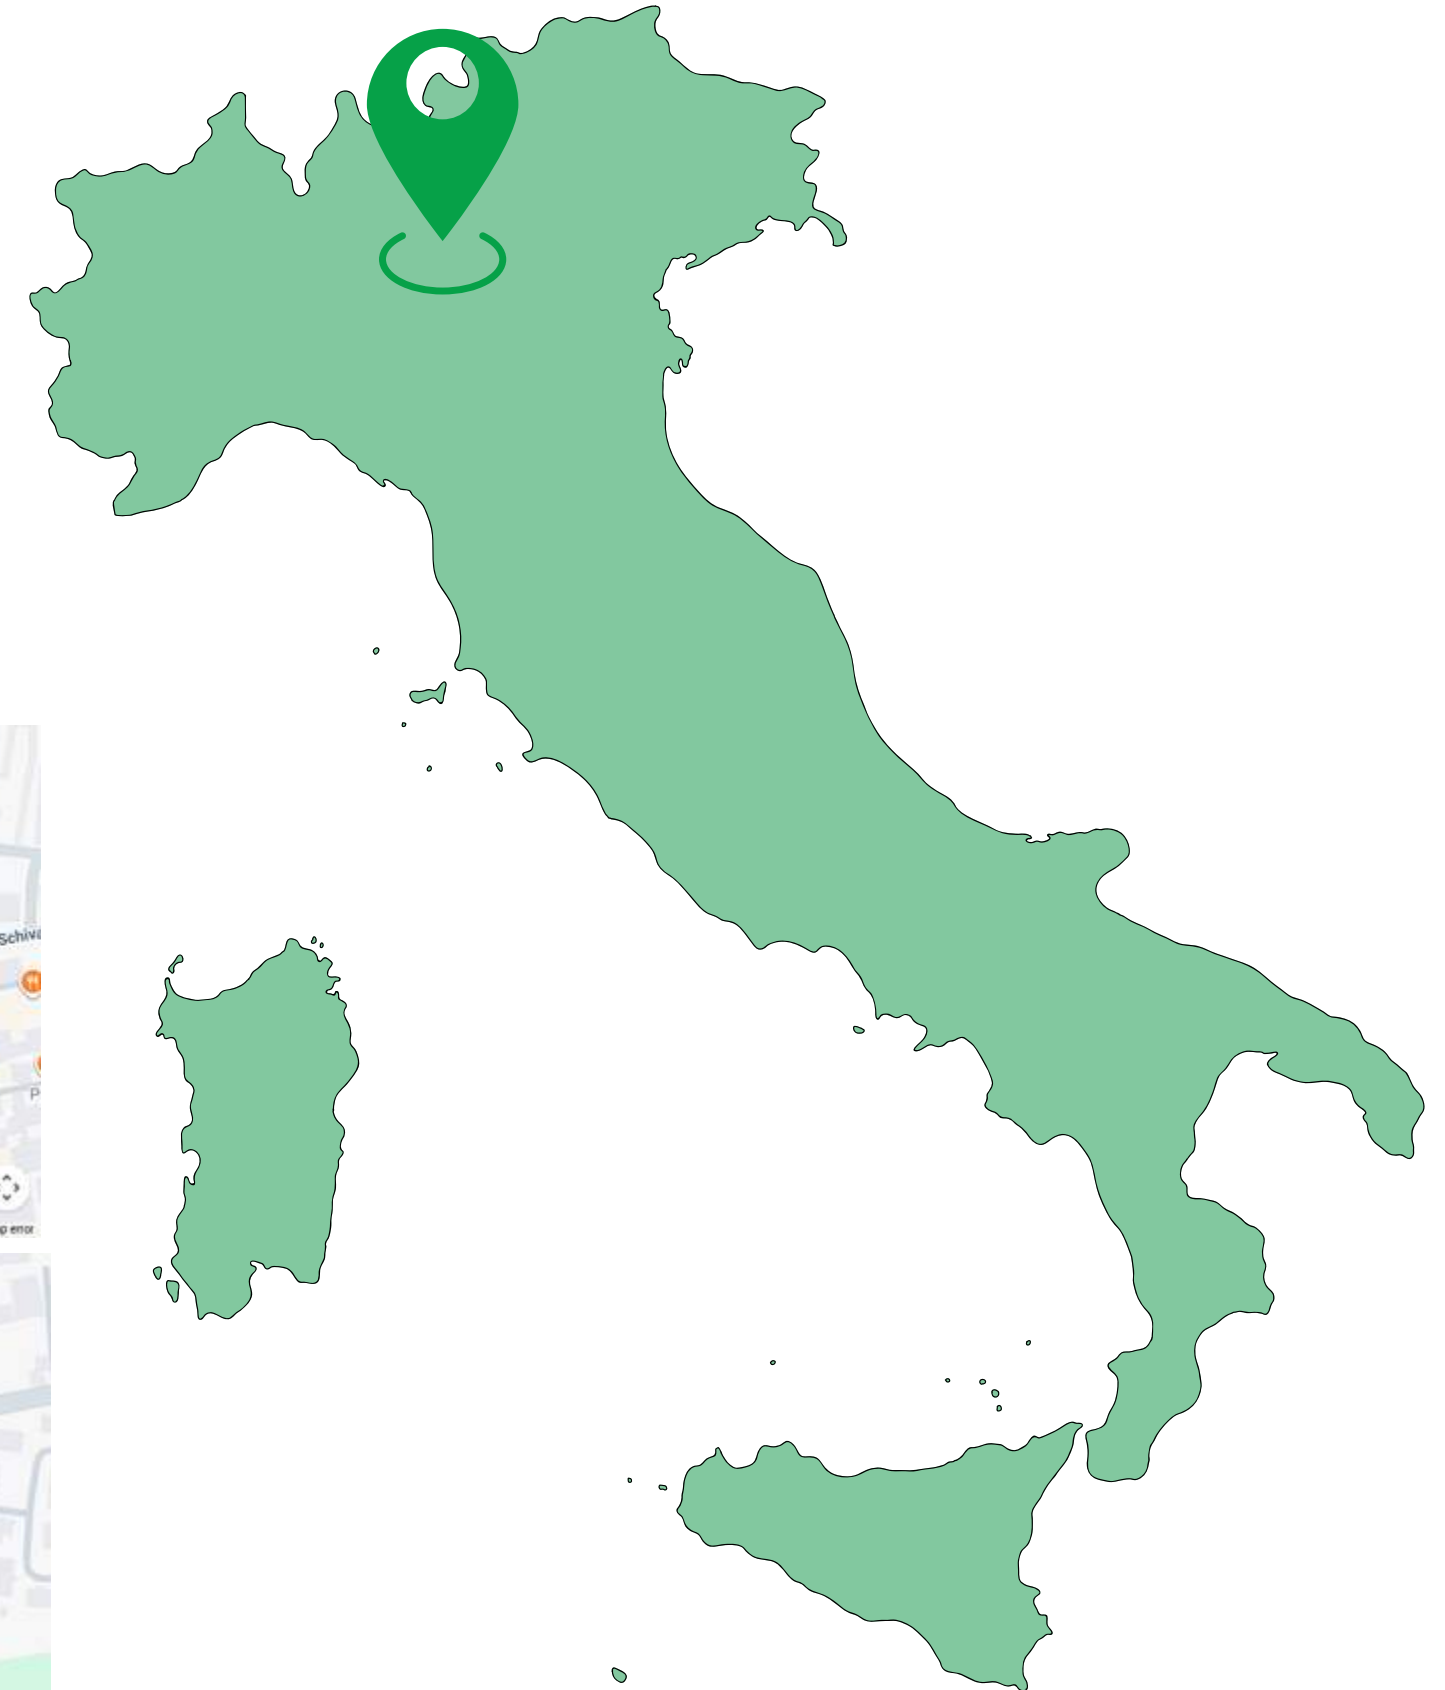

Head office in Romano di Lombardia

Operational headquarters in Fara Olivana con Sola

Construction site management and technical activities

OUR COMMITMENT

Efficiency. Reliability. Real results.

KE Group keeps investing in skills, technologies, and people to offer energy and construction solutions that are increasingly efficient, sustainable, and future-focused.

Sustainable

Solutions that respect the environment and create value

Reliable

Quality and safety at every stage of the project

Future-oriented

Continuous innovation for lasting performance
